Q2 FY23 Performance & Updates

# **Indian Automotive Industry Performance – Q2 & H1FY23**

#### Commentary

- Q2FY23 saw uptick in demand across segment except tractors, mainly driven by improved consumer sentiments
- Industry continues to grapple with supply chain constraints in the semiconductor area.
- Moving forward, the industry growth is expected to be led by easing supply chain situation as well as premiumization and new vehicle launches. Better realization of Agri produce could lead to higher rural demand
- Overall Industry growth in Q2 FY23 is 12.5% YoY and for H1 FY23 is 22.5% YoY

We remain cautiously optimistic on the auto industry on the back of strong cues in demand from the domestic market while exports remaining challenging on the back of geopolitical issues, economic uncertainties and looming energy crisis in Europe
