Q1 FY2023

Continued growth momentum with highest ever Quarterly Revenue

Double Digit EBITDA margin for eight* straight quarters on sequential basis

PAT Margin stood at 5.2% growing by 390 bps YoY

3 Patents filled during the Quarter taking the total IPs/Patents filed to more than 220

Won Businesses across segments with EV constituting more than 20% share of the orders received during the quarter

Indian Automotive Industry Performance – Q1 FY23

Q1 FY23 Growth (Y-o-Y)

Q1 FY23 Growth (Q-o-Q)

Commentary

- Despite supply chain constraints, long-waiting periods and semiconductor supply crunch, consumer demand continues to remain robust
- The entry-level automobile sales are under pressure due to increased prices amid the mounting commodity costs
- Improvement across all the segments on YoY basis due to Government steps to ease the inflationary pressure, reducing central excise duty on petrol & diesel and changing the duty structure to moderate prices of steel & plastic
- Overall Industry growth is 36.6% and 6.5% on YoY and QoQ respectively

While the industry has been grappling with numerous challenges, we remain cautiously optimistic about the Indian Auto industry due to increasing penetration, rising income and favorable government support

Commentary

Overall Revenue of Rs. 10,102 million for the Quarter:

- Operations outperformed industry production numbers
- New Business and increase in share of business with existing customers from Wiring Harness and Mechatronics
- Growth in die-casting business led by growth in PV and 2W segment along with exports.

EBITDA margin at 10.6% in Q1 FY23 :

- Delivered Double Digit Margin despite numerator/denominator effect of increase in raw material prices and adverse impact of Semiconductor shortages
- Sustained productivity and operational efficiency drives

* Note : Minda Instruments Limited (MIL) consolidated wef 1st Jan 2022 hence Q1 FY22 numbers are excluding MIL

Mechatronics, Aftermarket and Others

(in Rs. mn)

- The revenue stability was supported by strong fundamentals, increase in share of business, resilient aftermarket sales and increase in exports
- EBITDA margin stood at 12.6%
 - Mainly due to numerator/ denominator effect of increase in raw material prices
- Key focus remains on EV segment for 2W and increasing share of business from existing customers

Information & Connected Systems

(in Rs. mn)

- Improvement across most segments helped business in sustained sales despite supply chain constraints, long-waiting periods and semiconductor supply crunch.
- EBITDA margin stood at 7.1% mainly due to
 - Numerator/ denominator effect of increase in raw material prices

Technological disruptions shaping the business

Outcome

- ✓ Transform and become **complete solution provider and partner** of OEM's
- ✓ **Cost leadership** in manufacturing and **Thought leadership** position in Technology
- ✓ **Premiumization and product innovation** in all business segments to drive content per vehicle
- ✓ Deliver **better than industry growth** and continue to **improve margin profile**

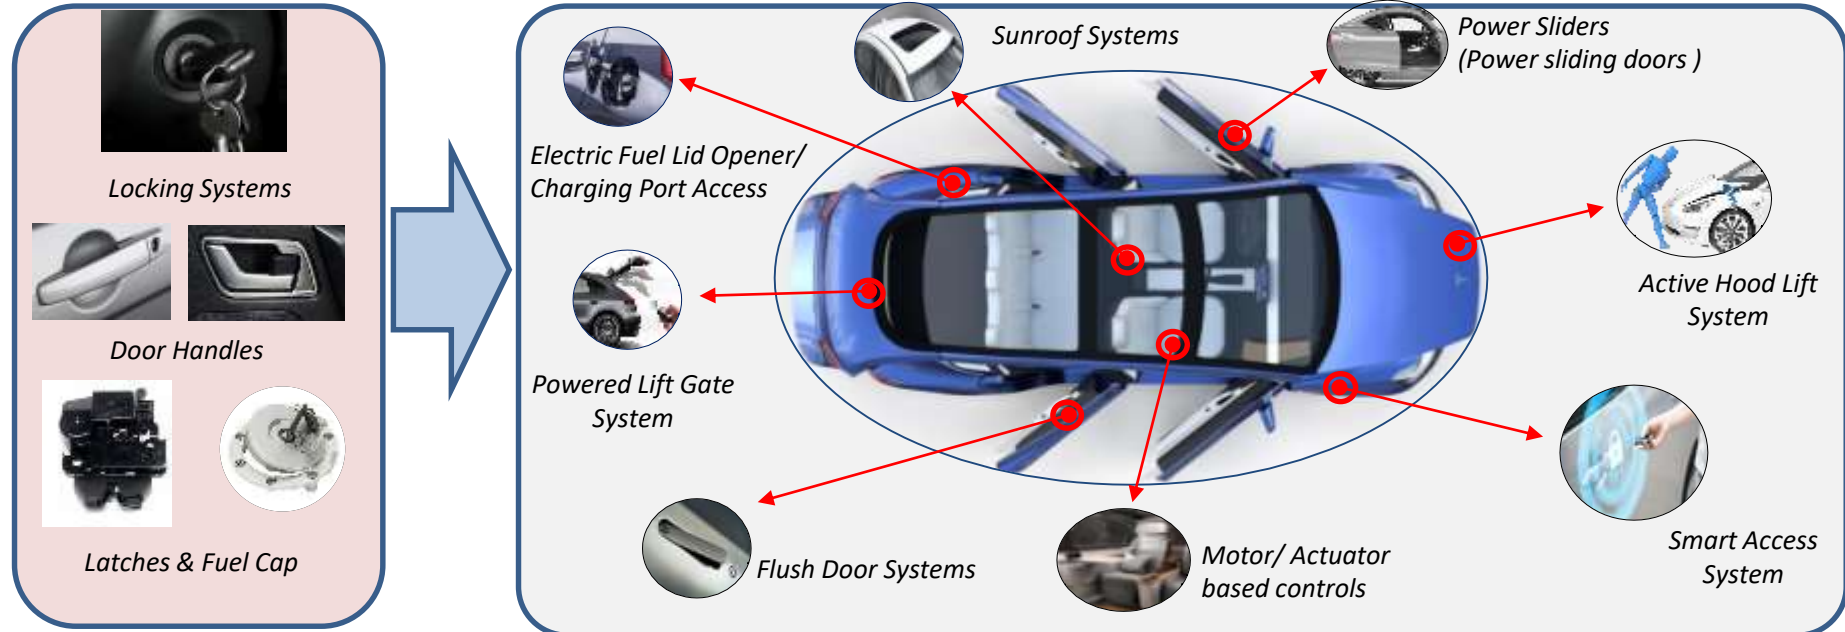

~90% Revenue Contribution

2% of Revenue as R&D spending
on innovation and acquisition of latest technology

Future of Lockset - Key less to become “ Secured Vehicle Access”

Conventional

Intelligent and Smart Vehicle Access

- User desire for high level comfort and convenience
- Safety and security becomes part and parcel of offered solutions
- Electronics content may increase to ~ 40 % of the overall vehicle content
- OEM's expectation to a differentiated, affordable and scalable system solutions

Future of Wiring Harness to transform as “EDS*”

- New EV vehicle technologies require additional electrical wiring and other electronic components
- Focus will be on light weighting of wiring harness specially for EV vehicles

Future of Power Electronics to become “ EV Drive train systems “

**Battery

- Increase in Power Density leads to requirement of more Power in Less Volume
- Auto industry is strengthening their portfolio by investing more in development of power electronics technology
- “Make in India” & PLI scheme support by GOI will give additional incentive for EV industry growth

Ready to Capture Future Growth

Automotive Component - Segment Size

Our Growth Strategy is in Line with the Evolving Automotive Trends in the Industry

Most of our Products are Electric Vehicle Agnostic

EV Customers

Exports

- Die-Casting continues to drive the Export and Order booking gives us good visibility for the drive to continue
- Key-less entry solution being exported to 13 countries in Europe
- Exploring opportunities for Export of Wiring Harness
- Nearly 30% of revenue of Starter & Alternator Motors from Export
- Exports sales in FY22 stood at Rs. 3,802 mn, **CAGR growth of 28% over FY20-22 period**

Aftermarket Sales

Key Segment of Focus

- 2 Wheelers
- 3 Wheelers
- Passenger Vehicle
- LCV (< 1 Ton)
- M & HCV (> 1 Ton)
- Tractors

Sales Trend (Rs. Mn)

Increased focus on Aftermarket and Exports is helping reduce dependence on OEMs

Exports is value accretive with higher profitability and ensures expansion of margins

Emphasis is on increase in share of Export sales in near future by engaging merchant exporters and global OEMs

Incremental growth will be supported by exports across all product categories (both ICE and EV)

High value, Technologically advanced products; Global presence with 30 plants

Cost leadership in Manufacturing and Thought leadership position in Technology

Offering Advanced Technology products and system solutions in Light weighting, Active Safety, Connected, Electronification, and EV

Technological tie ups with global automotive component manufacturers

Well diversified customer base, product portfolio and business segments

Low leverage providing significant flexibility for organic / inorganic growth

Four-tier Governance structure to excel in Corporate Governance

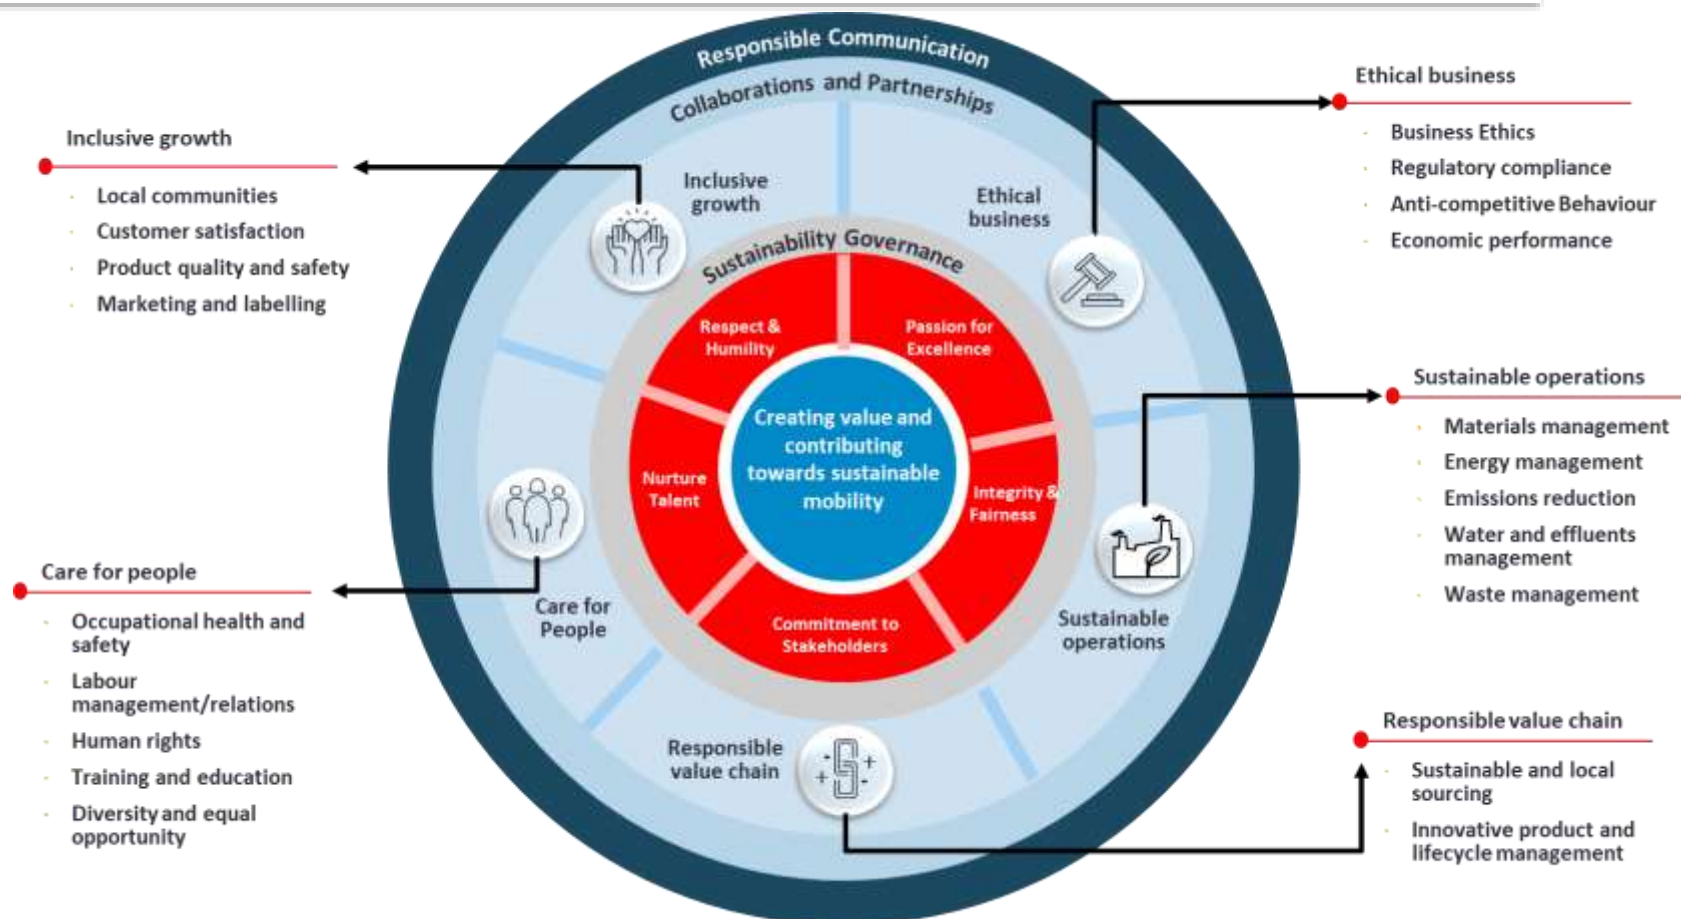

Higher focus on Sustainability by strengthening the framework of ESG

ESG, CSR and Awards
